

**“Dead space: the physiology of wasted ventilation.” H. Thomas Robertson.
Eur Respir J 2015; 45: 1704–1716.**

CrossMark

We regret that several typographical errors were introduced to the final published version of this article. The term P_{ACO_2} (to indicate alveolar carbon dioxide tension) was presented incorrectly as P_aCO_2 (used in the article to indicate arterial carbon dioxide tension).

Also, the second equation on page 1705 was presented incorrectly as

$$V_T = F_{ECO_2} = V_A \times F_{ACO_2} + V_D \times F_{DCO_2}$$

which should have read

$$V_T \times F_{ECO_2} = V_A \times F_{ACO_2} + V_D \times F_{DCO_2}$$

The online version of the article has been amended to correct these errors.
