

a**b**

Figure S2. Plasma mtDNA is not associated with platelet or white blood cell counts in the Yale cohort. There was no correlation between plasma MT-ATP6 concentrations and **(a)** platelet counts (x 10⁹/L, n=27, Spearman $r=-0.017$, $p=0.933$) or **(b)** white blood cell counts (x 10⁹/L, n=27, Spearman $r=0.047$, $p=0.818$) in the Yale cohort.
